re: Comments on February draft, Title 24 revision, Section 143 (a)(1)(C)

Dear Mr. Pennington:

Comment

“Continuous layer of rigid insulation” is nowhere defined. Does this require a monolithic system of sprayed polyurethane foam or similar products? Does it include / permit a conventional system of rigid insulation boards or panels, installed according to the manufacturer’s directions and related code requirements?

If you have any questions, please call me at (323) 908-5279.
